# The smart way of IR measuring.

CSmicro with IRmobile  
Android App

**NEW**

# Smart IR measuring

IRmobile

## IRmobile

With IRmobile you are able to monitor and analyze your infrared temperature measurement on a connected smart-phone or tablet. This app works on most Android devices running 4.4+ with a micro USB port supporting USB-OTG (On The Go).

**Setup of**  
emissivity,  
transmissivity  
and other  
parameters

**New adapter cable  
with Micro-USB plug:**

IR App Connector and Adapter for  
USB-C/ USB-A included.

### Features

- Temperature time diagram with zoom function
- Digital temperature values
- Setup of emissivity, transmissivity and other parameters
- Scaling of 4-20 mA/ 0-10 V output and setup of alarm output
- Change of temperature unit: Celsius or Fahrenheit
- Saving/ loading of configurations and T/t diagrams
- Restore factory default sensor settings
- Integrated simulator

### Supported for:

- CSmicro IR thermometers (v3 models only)
- For android devices running 4.4+ with a micro USB port supporting USB-OTG (On The Go)

### It is easy to operate:

After you plug your CSmicro device to the micro USB port of your phone or tablet, the app will start automatically. The device is powered by your phone. Different digital temperature values can be displayed in the temperature time diagram. You can easily zoom-in the diagram to see more details and small signal changes.
